Introduction to Scent Nose Work - for inside play/work

Dogs have an amazing sense of smell and a natural desire to hunt. This class will focus on teaching you how to encourage and develop your dog's natural scenting abilities by using their desire to hunt and their love of toys, food and exercise. Plus, this class will also advance the dog's scent discrimination skills taught in the basic nose work class- we will be matching an odor to a simple behavior that the dog already knows; like sit or down.

It's a great workshop for your dog and you to have fun, build confidence working as a team and burn lots of mental and physical energy and to find out just how you can help develop your dog's nose.

*Scent games are useful because:*

- All dogs have the natural ability
- The act of scenting both stimulating and tiring for your dog
- Scenting games can be played by the whole family inside or outside

*Included in the seminar:*

- Indoor Activities
- Beverages and snacks
